

RED HILL

DEMOLITION AND CONSTRUCTION OF FIVE-BEDROOM DETACHED PROPERTY | RED HILL (2017)

This project involved the demolition of existing property and erection of two buildings (annex and the main house) on the same plot. The annex contains a one-bedroom lounge, kitchen and bathroom with underfloor heating throughout. The main house consists of five bedrooms with underfloor heating throughout, utility room, garage and home office. The works included some of the external finishes. works were completed December 2017.
